SUMMARY

Senior iOS Software Engineer with multiple years of experience designing, developing and maintaining scalable iOS applications in various domains. Strong expertise in Swift, SwiftUI, Objective-C, UIKit, MVVM, REST APIs, Firebase, CI/CD pipelines and App Store deployment. Experienced in building high-performance mobile applications with a focus on reusable components, performance optimization, and scalable architecture. Additional expertise in C++, Unreal Engine, SDL and strong collaboration experience within cross-functional teams.

EXPERIENCE

Senior iOS Engineer

Feb 25 - Present

DAPL IT Services

Malaysia

App Store: [iSPEED.my](#)

- Modernized legacy Objective-C modules by migrating frame-based UI implementations to Auto Layout for improved scalability and maintainability across iPhone devices.
- Redesigned the application's tab bar navigation and enhanced overall UI/UX consistency.
- Implemented Multi-Factor Authentication (MFA) workflows to strengthen application security and user authentication.

Senior iOS Software Engineer

June 23 - Sep 24

iDoc

Remote, Part-time

App Store: [iDoc](#)

A remote company specializing in healthcare application development

- Developed and maintained healthcare-related iOS applications using Swift and MVVM architecture.
- Designed reusable UI components optimized for multiple iPhone devices.
- Integrated REST API's, asynchronous networking and Test Flight workflows.

Senior iOS Software Engineer

June 22 - May 23

Achieve Group

Singapore

App Store: [UOB TMRW MY](#), [UOB TMRW TH](#)

- Contributed to the development and maintenance of UOB Malaysia and Thailand mobile banking applications within an Agile development environment.

TECHNICAL PROJECTS

Technical Portfolio

iOS apps, Unreal Engine projects, and in-development mobile applications.

SKILLS

Programming Languages

Swift, SwiftUI, Objective-C, C/C++

iOS Development

UIKit, Foundation, Core Animation, Auto Layout, GCD, URLSession, MapKit, XCTest

Design Patterns

MVC, MVVM, VIPER

Backend Integration

Firebase, RESTful APIs, Node.js, PostgreSQL

Dependency Management

Swift Package Manager, CocoaPods

CI/CD & Distribution

TestFlight, App Store Connect, Bitrise

Game Engine / Libraries

Unreal Engine, SDL, SFML, OpenGL

- Implemented assigned feature enhancements, UI improvements, and bug fixes using Swift and UIKit while adhering to established internal frameworks and architectural guidelines.
- Developed and executed unit tests to improve application stability and maintain code quality.

Lead iOS Developer

Oct 20 - May 22

Mohkaab Enterprise

Pakistan

App Store: [CareVision Staff App](#), [CareVision Family App](#)

- Led end-to-end development of healthcare and care home management iOS applications using Swift, UIKit, Firebase, and RESTful APIs.
- Independently designed, developed, tested, and deployed multiple iOS applications, including production applications published on the Apple App Store.
- Mentored and guided junior iOS developers during later project phases while maintaining primary ownership of application architecture and feature implementation.

iOS Software Engineer

May 19 - Sep 20

Fresh Brain Studio

Pakistan

App Store: [Signature App](#)

iOS & Web Software Engineer

Dec 16 - Jan 19

SecureTech LLC

Abu Dhabi, UAE

iOS Software Engineer

Apr 15 - Dec 16

Zen of Ruby

Pakistan

SoftwareEngineer iOS

Dec 13 - Nov 14

Pikes Soft

Pakistan

Malware Researcher

Feb 13 - Nov 13

Ebryx

Pakistan

Jailbreak iOS & MAC Developer

Aug 11 - Dec 12

Pribno Pty Ltd

Pakistan

App Store: [iPhone Monitoring Software](#), [PC Monitoring Software](#)

EDUCATION

Master of Computer Science

Virtual University of Pakistan

Sep 17 - May 22
